Fifth Level (Eleventh Semester)	الفرقة/المستوى:	High- Risk N Applied Nur Nursing Adm طفال مبتسرین و ادارة	sing and inistration	اسم المقرر:	APC1104	الرمز الكودى:
		نظري:	.7 (.4)	#1-1 11	B.Sc. in Nursing	
2	2 credit hour	عملي:	الدراسية:	عدد الساعات	credit hour system	التخصص:

This course aims to enable students to demonstrate high technical skills in caring for high risk neonates and to acquiring of competent leadership skills in high- risk neonates department.	٢ - هدف المقرر:
دريس المقرر:	٣- المستهدف من ت
	أ- المعلومات
	أ- المعلومات والمفاهيم:
B-1. Interpret the assessment criteria of high risk neonate.	
B-2. Discuss the major health problems of high risk neonate.	ب- المهارات
B-3. Formulate appropriate management plans for high risk neonate	الذهنية
presenting with the most common pediatric disorders.	-
B-4. Comprehend the nutritional requirement of high risk neonate.	الخاصة
B-5. Demonstrate appropriate professional attitudes and behaviors in	بالمقرر:
different practice situations.	
C.1. Assess the gestational age.	m 1 1 t1 —
C Practice physical & physiological growth in high- risk neonates.	ج- المهارات
C.2 Carry-out appropriate assessment for motor, cognitive, emotional and	المهنية

social development in high-risk neonates according to standard milestones and recognize abnormalities. C3. Apply appropriate anthropometrics assessments for the nutritional status of high-risk neonates. C4. Perform appropriate and safe baby bath. C5. Administer various route of medication for infants and children in appropriate and correct way. C6. Provide various kinds of feeding for infants. D.1. Apply principles of human needs. D.2. Use evidence- based nursing for problem solving / decision making (critical thinking). D.3- Appreciate work with a team D.4. Communicate using different communication skills. D.5- Planning in priority according to the actual health conditions D.6. Use computer and internet skills E.1- Apply the principles of confidentiality and privacy E.2- Appreciate the patient values and preference in relation to nursing interventions. C1 Classification of high risk neonate. Admission critical for high risk unit Assessment of high risk neonates with various medical conditions Nursing care of high-risk neonates with common surgical conditions. Demonstration and re-demonstration Role play. Not Applicable Not Applicable Not Applicable Scalar device and safe baby bath. Scalar device and scalar device
