Master degree of Medical-Surgical Nursing

رؤية الكلية

تسعى كلية التمريض – جامعة المنصورة أن تكون إحدى أفضل كليات التمريض محلياً وإقليمياً ودولياً وأن تساهم بفاعلية في الارتقاء بالمنظومة الصحية في مصر.

رسالة الكلية

كلية التمريض – جامعة المنصورة مؤسسة تعليمية وبحثية حكومية تقدم برامج تعليمية في علوم التمريض لتقديم خريج مؤهل علمياً وعملياً وإنتاج بحث علمي ودعم احتياجات المجتمع الصحية.

الأهداف الإستراتيجية للكلية

1. التوسع في البنية التحتية والتجهيزات اللازمة لتحقيق التميز في كافة المجالات
2. تنميه ودعم مهارات القيادات وأعضاء هيئة التدريس ومعاونيهم والجهاز الإداري
3. تنمية الموارد الذاتية للكلية
4. تحديث آليات التقويم الذاتي بهدف التميز وتجديد الاعتماد
5. دعم العملية التعليمية لتخريج كوادر متميزة
6. تطوير برامج الدراسات العليا وجوده الأبحاث العلمية
7. تعظيم دور الكلية في مجال خدمة المجتمع وتنميه البيئة

Master degree of Medical-Surgical Nursing

رؤية القسم

يتطلع قسم تمريض الباطنى والجراحى بكلية التمريض جامعة المنصورة إلى احتلال مكان الصدارة بين كافة الأقسام العلمية المختلفة بكلية والكليات المناظرة بكليات التمريض بالجامعات المصرية من خلال الأداء المتطور لخريج التمريض والمنافسة فى تقديم الخدمات التمريضية والأبحاث العلمية المتميزة علي الصعيدين الإقليمي والدولي.

رسالة القسم

تكمّن رسالة قسم تمريض الباطنى والجراحى فى دعم المبادئ الاساسيه لدراسة التمريض علي المستوي الجامعي من خلال تقديم ماده علميه تتوافق مع المفاهيم الحديثه للتمريض والمهارات العلمية الاكلينيكيه لإعداد طالب متميز من حيث التأهيل المعرفي والمهاري والمهني وتقديم رعاية تمريضية شامله ذات جوده عاليه لمختلف تخصصات تمريض الباطنى والجراحى للمرضي والأصحاء بالمستشفيات والمراكز الصحية المختلفه وتوفير الخبرات التعليمية المتعدده والمتنامية فى التخصصات العلمية المختلفه لتلبية احتياجات ومتطلبات سوق العمل محليا وإتاحة فرص التعلم المستمر لخريجيهم وغيرهم من خلال برامج الدراسات العليا طبقا للخطة البحثية المعتمدة بالإضافة إلى تقديم الاستشارات الفنية والتدريبية بالمؤسسات المجتمعية المختلفه علي المستوي القومي والإقليمي والعالمي لضمان التنمية المستدامة فى المجتمع ومواكبة كل ما هو جديد.

Master degree of Medical-Surgical Nursing

Program Specification & Mareix

Master degree of Medical-Surgical Nursing

University: Mansura

Faculty: Nursing

Department: Medical-Surgical Nursing

Program Specification

A. Basic Information

Program Title: Master of Medical-Surgical Nursing

1- Program Type: (Single)

Department responsible for the program: Medical-Surgical Nursing

Date of approving the program: 21/2/2013

Date of review and update: 15/7/2018

B. Professional Information

1. Programme general objective

Medical-Surgical Nursing Master Program aims to:

- 1) Orient post- graduate nursing students with advanced skills in general medical surgical nursing and how to provide specialized, comprehensive and skillful nursing management for patients with alteration in different body system
- 2) Enable post- graduate nursing students to conduct researches, academic educational and field practice in a competent manner.

2. Intended learning Outcomes (ILOs)

A. Knowledge & Understanding

- A1. Identify the principles of scientific research ethics and its impact on the quality of research
- A2. Summarize the components and different designs of research methodology
- A3. Describe nursing management of patients with various health problems according to priority

Master degree of Medical-Surgical Nursing

- A4. Discuss models, strategies and theories of health education and its application in medical surgical nursing and allied sciences.
- A5. Identify the new trends and basic knowledge of medical surgical nursing and its sub specialties
- A6. Identify bioethical principles, core values, and standards of medical surgical nursing.
- A7. State fundamental quality in practicing medical surgical nursing
- A8. Describe the concept of evidence based practice in medical surgical nursing
- A9. Improve quality of care provided to patient with medical surgical health problems
- A10. Discuss updated knowledge and practice in staff development
- A11. Explain the different stages of human development, evolution and growth
- A12. Describe the basic principles of structure and function of different tissues, organs and systems of the human body
- A13. Identify function and mechanism of different body system.
- A14. Discuss knowledge derived from medical surgical courses for the development of decision making in practice.
- A15. Identify different teaching strategies for nursing

B. Intellectual/ Cognitive

- B1. Analyze data by using different statistical approaches
- B2. Critique scientific papers in medical surgical nursing
- B3. Plan for using innovative teaching strategies
- B4. Integrate theories of educational psychology in designing educational program related to various health problems
- B5. Synthesize a range of solutions to solve, critically evaluates, and justifies proposed solutions for various health problems.
- B6. Apply principles of problem solving, decision-making, critical thinking and independent judgment to the care of patients in acute/critical condition.
- B7. Apply appropriate managerial skills in medical surgical settings

Master degree of Medical-Surgical Nursing

- B8. Correlate different scientific knowledge to solve professional problems
- B9. Formulate research problem
- B10. Follow reasoning and scientific approach for solving medical surgical health problems using the available data.
- B11. Evaluate challenges of professional practice
- B12. Plan for using innovative teaching strategies in medical surgical nursing.
- B13. Interpret clinical findings in relation to various health problems
- B14. Assists patient to make informed health care decisions.
- B15. Differentiate between alterations in body system
- B16. Design and plan performance development in critical care nursing.
- B17. Assess professional hazards in medical surgical nursing.
- B18. Differentiate between structures of the human body

C. Practical & Professional skills

- C1. Write research proposal based on choosing appropriate research design and statistical analysis
- C2. Presenting scientific paper in medical surgical nursing.
- C3. Demonstrate proficiency and competency in medical surgical nursing practice.
- C4. Apply research methodology and statistical science
- C5. Demonstrate health education skills for patient with acute illness
- C6. Demonstrate an ability to integrate knowledge to provide a high standard of care for acutely ill patients.
- C7. Develop health education program at different adult care settings
- C8. Measure the impact of nursing practice in acutely ill patients
- C9. Provide safe, ethical, advanced and extended nursing practice for adult patient in acute stage.
- C10. Apply nursing education theories in academic field and staff development
- C11. Write accurate professional report according to standard criteria.
- C12. Evaluate the current practices in the area of specialty.

Master degree of Medical-Surgical Nursing

D. Transferable skills

- D1. Use information technology in academic and field practice
- D2. Establish and maintain effective interpersonal relationships with acutely ill patients, their family and other members of the health care team.
- D3. Demonstrates self evaluation and identify personal learning objectives
- D4. Utilize different information resources
- D5. Demonstrate leadership skills and teamwork
- D6. Demonstrate time management skills
- D7. Demonstrate lifelong self-learning skills
- D8. Communicate effectively in different work environment taking into consideration all influencing factors

3. Academic Standards

Academic Reference Standards (ARS)

ARS of Faculty of Nursing, Mansoura University were developed based upon the Generic National Academic Reference Standards (NARS) of Postgraduates which developed by the National Quality Assurance and Accreditation in Education (NAQAE) August, Second edition 2009, which covers the following postgraduate students attributes.

1. Graduates Attributes

Graduate of the Master's program in any discipline must be able to:

1. Professional in the application of basic, strategies and the use of various tools of scientific research.
2. Apply of the analytical approach and using it in the area of specialty.
3. Apply the scientific knowledge and combined it with relevant knowledge related to professional practice.
4. Show awareness of the current problems, and new trends in the field of specialty.
5. Determine professional problems and find solutions for it
6. Mastery of appropriate specialized professional skills, and the use of technology to serve the professional practice.
7. Communicate effectively and has the ability to lead teams work.
8. Decision-making in different professional contexts.
9. Employment of the available resources to achieve the highest benefits and maintain it

Master degree of Medical-Surgical Nursing

10. Show awareness of his/her role in the community development and environmental conservation in the light of the international and regional changes
11. Act to reflect a commitment to integrity, credibility and follows by the profession rules
12. Development his/her self academically, professionally and capable of continuous learning.

2. General academic reference standard

2-1 Knowledge & understanding

By The end of the Master Nursing program, the graduate must be aware and understand the following:

- A. Theories and principles related to the field of learning as well as in the related areas
- B. The mutual effect between the professional practice and its impacts on the environment
- C. New trends in the field of specialty.
- D. Ethical and legal principles of professional practice in the area of specialty.
- E. The principles and basics of quality of professional practice in the area of specialty.
- F. Basics and ethics of scientific research

2-2 Intellectual Skills

By The end of MSC nursing program the graduate must be able to:

- A. Analyze and evaluate the information in the area of specialty and follow it for solving problems
- B. Solve specialized problems even with the unavailability of some data
- C. Link different knowledge to solving professional problems
- D. Doing a research study and/or writing a scientific study for research problem
- E. Assess the professional practical hazards in the area of specialty.
- F. Plan for improvement of in the area of specialty.
- G. Making professional decisions in a variety of professional contexts

2-3 Professional skills

By The end of MSC nursing program the graduate must be able to:

- A. Mastering basic updating professional skills in the area of specialty.
- B. Write and evaluate professional reports
- C. Evaluate the current methods and tools applied in the area of specialty.

2-4 General and transferable skills

By The end of MSC nursing program the graduate must be able to:

- A. Use different communication skills effectively
- B. Use information technology to serve the professional practice
- C. Self-assessment and identify personal learning needs
- D. Use different resources of knowledge and information
- E. Develop rules and indicators for evaluating the performance of others
- F. Working in a team, and lead teams in various professional contexts
- G. Manage time efficiently
- H. Self- and continuous learning

Master degree of Medical-Surgical Nursing

7. Program registration requirement

Candidates for the Master of Medical-Surgical Nursing program must fulfill the following academic criteria:

1. The candidate must hold the Bachelor of Science in nursing degree with a minimum grade of good from one of the recognized universities in Arab Republic of Egypt or an equivalent degree
2. Candidate who is registered from outside the faculty must have practiced nursing in hospitals or health care institutes for at least two years after the internship. Candidates who are working as university members should practice for at least one year after the internship year.
3. Candidates who are registered from outside must be enrolled on a full time basis for the first year.
4. Registration for master program is announced yearly during August.
5. The courses are divided into three semesters as follows:
1st semester starts in September and ends in December (15 weeks)
2nd and 3rd semester starts in February and ends in September (32 weeks).

8. Roles and Regulation to Completion the Program

1. Satisfactory attendance for all courses and clinical training.
2. The candidate attends the required examinations at the end of each semester.
3. Pass all written examinations
4. Register for her / his thesis after passing all the first and second terms courses successfully
5. Submit a protocol for conducting a research project which must take the approval of the faculty council after the approval of the faculty council after the approval from research nursing council.
6. Discuss her /his thesis in front of judging committee at least after one year from the date of registration with a maximum period of 4 years after passing the third term courses successfully.
7. The candidate is permitted a second chance for passing the examinations in which she /he failed for any semesters courses at the end of the semester.
8. The candidate is permitted to repeat the examination in the courses if she failed to pass the re-write examination.

Master degree of Medical-Surgical Nursing

9. The candidates success or failure is based on the following criteria of grading system :

- Excellent:** from 85% of the total scores.
- Very good:** from 85% of the total scores.
- Good:** from 75% of the total scores.
- Poor:** from 65% of the total scores.

Master degree of Medical-Surgical Nursing

-Very Poor: Less than 30% of the total scores.

10. The final grading system is divided into :

-20% for preparatory courses

-40% for specialty courses

-40% for Thesis

9. Roles and Methods for students' evaluation

Method

1- Written exam

2- Oral exams

3- Practical exams

4- Semester work assessment

10. Program Methods of Assessment

Target groups	Methods	Sample
1. Senior students/Fourth year student	Self administered questionnaire Semi- structured interview	70%
2. Graduates	Self administered questionnaire Semi- structured interview	30%
3. External Evaluator(s) or External Examiner (s)	reports	100%
