### **GUIDELINES FOR STUDENTS**

#### **1. Identification Badges**

Students wear Identification Badge at all times while on campus and within the clinical setting areas. Failure to wear ID badge will result in the student not being allowed to enter in to the classroom or clinical setting.

#### **2. Attendance Policy:**

a. **CLASSROOM** – It is strongly advised that students attend all classes.

The student is responsible for material covered in any class or lab.

b. **CLINICAL** – Students are required to attend 100% of the stated clinical hours in nursing course at scheduled time. If student come late by 5 min considered late, two day late equal to one day absent. If student come late by 10 min considered absent. If the student misses 10% of clinical hours due to illness, death of a family member or unpreventable circumstance, the student will make up the hours according to the guidelines stipulated by the Nursing Department. Make-up of the clinical time must be completed before the end of the term.

If additional absences occur (beyond 20%), the student will be subject to clinical failure,

Failure to notify the instructor and the facility prior to clinical absence will be considered unethical performance and can result in clinical failure.

#### **3. Classroom Etiquette:**

An integral part of an education is developing a sense of integrity and responsibility, not only toward instructors, but also toward other students. In the classroom, appropriate behavior reflects on your maturity. Arriving late to class, being unprepared, inappropriate talking while class is in session, etc. negatively reflects on you and your evaluation. Please be considerate.

#### **4. Clinical /theoretical evaluation:**

1. **Patient Care Areas:** If a student jeopardizes patient safety or engages in unethical or illegal behavior, this will result in a clinical course grade of failure.

2. **Nursing Lab:** Satisfactory demonstration of each designated skill or procedure according to established guidelines. Students will give two (2) attempts to perform each designated skill. A student who is unsuccessful after the second attempt will receive an unsatisfactory evaluation and will result in failure to meet minimal requirements for the class.

3. Any assignments must have your name on it or you will receive a zero.

4. Students are expected to be fully prepared for each class.

5. One half (1/2) point will be deducted for each misspelled word. This applies if the same word is misspelled more than once, and no points will be given if I am unable to read your answer.

a. Tests will consist of information gathered from: lecture, assigned reading, material handed out in class/on web, assigned, and video content. Test questions will be accumulative.

b. There will be no retests. Makeup tests will be allowed only for valid excuses and prior contact with the instructor is made when possible. A grade of “zero (0)” will be recorded for any tests missed. If a foreseeable problem should arise, a test may be taken early at a time established by the instructor. To be eligible to take the test before the planned exam date the student must contact the instructor prior to the scheduled time of the test.

c. Final exams will only be administered on the designated date and during the designated time.

d. In event you are absent on a day of a scheduled test, and your excuse is valid, you are expected to make up the missed test on your first day back to school (clinical or lecture). Failure to do so will result in a grade of zero (0) for that test.. You will need your student ID card in order to take the test.

5. Uniform Students will be expected to dress professionally and maintain professional conduct at all times in the clinical. No jewelry, cut nails, black low heel shoes, blue scarf, white lab coat (please see student nurse handbook).

6. There is to be no drinking or eating in the clinical area, simulated lab, or computer area.

7. Electronic devices (cell phones, I pad, etc) must be turned off during class. The devices are not part of the instructional environment and may be confiscated by the instructor if utilized during class time.
