Acceptance of Research Proposal

Proposal Title:

Corresponding Author:

Coauthor(s):

Dear Dr.

The Research Ethics Committee (REC) of the Faculty of Nursing, Mansoura University, Egypt, has reviewed and approved the aforementioned research proposal.

The research strategy outlined in the proposal must be followed by the researchers by REC rules and regulations. Please be aware that this committee's prior approval is required before making any changes to the study proposal's aim, technique, or data management that may become necessary during its implementation. Therefore, it is compulsory to submit the details of such changes with justification before implementation of the protocol. A report outlining progress in the research plan should be submitted to the REC every six months. The REC should be notified in writing of any adverse events or unfavorable incidents that occurred throughout the data collection process.

Research Ethics Committee Approval	IRB

Sincerely

Prof. Samar Elhoseiny Abdelraouf

Chair of Research Ethics Committee
