PhD of Woman's Health and Midwifery Nursing

## رؤية الكلية

تسعى كلية التمريض – جامعة المنصورة أن تكون إحدى أفضل كليات التمريض محلياً وإقليمياً ودولياً وأن تساهم بفاعلية في الارتقاء بالمنظومة الصحية في مصر.

## رسالة الكلية

كلية التمريض – جامعة المنصورة مؤسسة تعليمية وبحثية حكومية تقدم برامج تعليمية في علوم التمريض لتقديم خريج مؤهل علمياً وعملياً وإنتاج بحث علمي ودعم احتياجات المجتمع الصحية.

## الأهداف الإستراتيجية للكلية

1. التوسع في البنية التحتية والتجهيزات اللازمة لتحقيق التميز في كافة المجالات
2. تنميه ودعم مهارات القيادات وأعضاء هيئة التدريس ومعاونيهم والجهاز الإداري
3. تنمية الموارد الذاتية للكلية
4. تحديث آليات التقويم الذاتي بهدف التميز وتجديد الاعتماد
5. دعم العملية التعليمية لتخريج كوادر متميزة
6. تطوير برامج الدراسات العليا وجوده الأبحاث العلمية
7. تعظيم دور الكلية في مجال خدمة المجتمع وتنميه البيئة

PhD of Woman's Health and Midwifery Nursing

---

## رؤية القسم

يسعى قسم تمريض صحة المرأة والتوليد -كلية التمريض-جامعة المنصورة الي ان يكون نموذج للتميز العلمي و العملي بين الاقسام العلمية المختلفة و ان يساهم بفاعلية في الارتقاء بالمنظومة الصحية

## رسالة القسم

يسعى قسم تمريض صحة المرأة والتوليد -كلية التمريض-جامعة المنصورة ان يقدم برامج تعليمية في علوم التمريض لتقديم خريج مؤهل علميا وعمليا وسلوكيا مع انتاج بحث علمي يخدم العملية التعليمية و احتياجات المجتمع و متطلبات سوق العمل محليا ودوليا ومنح الطلاب بالمعلومات و المهارات و الاتجاهات الايجابية التي تمكنهم من تقديم رعاية تمريضية للمرأة خلال مراحل العمر المختلفة

## PhD of Woman's Health and Midwifery Nursing

---

**University:** Mansura

**Faculty:** Nursing

**Department:** Woman's Health and Midwifery Nursing

### Program Specification

#### A. Basic Information

1- *Program Title:* PhD of Woman's Health and Midwifery Nursing

2- *Program Type:* (Single)

**Department responsible for the program:** Woman's Health and Midwifery Nursing

*Date of approving the program:* 21/2/2013

*Date of review and update:* 1/4/2019

#### B. Professional Information

##### 1. Programme general objective

Post graduate doctorate nursing program aims to graduating qualified experienced academically and professionally graduates with knowledge, attitude and skills of maternity nursing. In addition graduates must achieve highest standards of ethical, professional practices and quality in a variety of health care settings through conducting research and doing creative activities that improving the standard of women care and empowering women.

##### 2. Intended Learning Outcomes (ILOs)

###### A. Knowledge and Understanding

At the end of woman's health and midwifery nursing PhD program, each post graduate must be able to:

A1. Discuss midwifery theories.

## PhD of Woman's Health and Midwifery Nursing

---

- A2. Explain principles of woman's health.
- A3. Identify updates in maternity care.
- A4. Discuss new trends in woman's health and midwifery practice.
- A5. Identify actual and potential high risk problems through female life cycle.
- A6. Discuss basic elements of scientific research ethics.
- A7. Discuss woman's rights and ethical rolls in maternity health practices.
- A8. Summarize process of applying scientific research about woman's health problems.
- A9. Discuss ethical principles in midwifery practices.
- A10. Clarify ethical issues in maternity care.
- A11. Restate the professional ethical and legal cods for maternity practices.
- A12. Discuss quality improvement strategies in area of woman's health.
- A13. Identify principles of quality in different maternity health services.
- A14. Discuss evidence based practice in maternity health care.
- A15. Illustrate the impact of updating in maternity health practices on woman's life.

### **B. Cognitive / Intellectual Skills**

At the end of woman's health and midwifery nursing PhD program, each post graduate student must be able to:

- B1. Analyze different data and knowledge in maternity and using it for future maternity improvement plan.

## PhD of Woman's Health and Midwifery Nursing

---

- B2. Predict new ideas for solving maternity problems.
- B3. Recommend protocols for different maternity research problems.
- B4. Justify national plans for high risk maternity health problems.
- B5. Use national and international reference for solving maternity health problems.
- B6. Formulate research proposal.
- B7. Present scientific results.
- B8. Critique scientific papers using evidence and reasoning.
- B9. Predict hazards in health care system.
- B10: Create plans to advance maternity performance in both academic and field practices.
- B11. Making professional decisions in maternity context based on available data.
- B12. Create new ideas concerning empowerment of Egyptian women using evidence based practice and clinical reasoning.
- B13. Determine most recent evidence based practices which are applied worldwide.

### C. Practical and Professional skills

At the end of woman's health and midwifery nursing PhD program, each post graduate student must be able to:

- C1. Utilize new evidence for improvement of maternity health services.
- C2. Apply new trends of professional practices in maternity.
- C3. Write maternity health reports.

## PhD of Woman's Health and Midwifery Nursing

---

C4. Evaluate different types of reports.

C5. Apply research finding results to innovate academic and field practice in midwifery.

C6. Measure the impact of new practices on woman`s health.

C7. Use information technology in health care system.

C8. Plan for staff development in midwifery practices.

C9. Plan for academic staff development in the area of woman`s health.

### **D. General and Transferable Skills**

At the end of woman`s health and midwifery nursing PhD program graduate must be able to:

D1. Present scientific papers with different point of views.

D2. Present information accurately and clearly in written, electronic, and oral forms.

D3. Practice communication skills in education and practices.

D4. Use information technology in professional practices and written thesis.

D5. Perform statistical analysis for different data by using different staff performances.

D6. Teach new strategies for improving maternity nurses` practices.

D7. Evaluate performance of academic and practical nursing staff.

D8. Plan for in-service training programs.

## PhD of Woman's Health and Midwifery Nursing

---

D9. Apply the concept of continues learning in daily practices.

D10. Assess self for educational and practical needs.

D11. Use electronic and non electronic resources for collecting information& knowledge.

D12. Apply concept of team building.

D13. Practice leadership in health care system.

D14. Work in a team.

D15. Develop time management plan for scientific meetings.

D16. Follow time plan for maternity practices.

### 3. Reference Standards

#### Academic Reference Standards “ARS”

##### 1. Graduates attribute

**The graduate of PhD program should be able to:**

1. Master the basics and scientific research methodologies
2. Continuing work on the addendum to the knowledge in the area of nursing field
3. Application of the analytical method and critic of knowledge in the area of specialization and related fields
4. Integrating the specialized knowledge with the related knowledge related to nursing knowledge breeder and developer of bilateral relationship among them.
5. Show the deep awareness of the ongoing problems and modern theories in the area of nursing field
6. Identify professional problems and find innovative solutions to solve them.
7. Mastery of a wide range of professional skills in the area of nursing field.
8. Trend towards the development of methods and tools and new methods of professional nursing practice.

## PhD of Woman's Health and Midwifery Nursing

---

9. Use of appropriate technological means to serve the professional nursing practice.
10. Communicate effectively and lead a team working in various nursing professional contexts.
11. Take decision in light of the information available.
12. Employment of available resources efficiently and develop and work on finding new resources.
13. Awareness of her/his role in community development and environmental conservation.
14. Act reflecting a commitment to integrity and credibility and rules of the nursing profession
15. Ongoing commitment to self-development and transfer of knowledge and experience to others.

### **2. Academic Reference Standard**

#### **2.1 knowledge & understanding**

By the end of the study the doctoral program graduates must be able to understand and knowledge with all:

- A - Theories and the basics of modern knowledge in the area of nursing specialization and fields of nursing relation.
- B - The Basics, methodologies and ethics of scientific research and its various tools.
- C – Ethical and legal principles of professional practice in the area of nursing field.
- D - Ethical principles and the basics of quality in professional practice in the area of nursing field.
- E - Knowledge on the effects of professional practice on the environment and methods for environmental development and maintenance.

#### **2-2 Intellectual skills**

By the end of the study the doctoral program graduates must be able to:

- A - Analysis and evaluation of information in the field of nursing specialization and measurement and elicitation on it.
- B -Solving specialized nursing problem based on the available data.
- C –Carrying out research studies which add to the body of nursing knowledge.
- D - Drafting scientific papers.
- E - Risk assessment in nursing professional practices.

## PhD of Woman's Health and Midwifery Nursing

---

G- Planning for the development of performance in the area of nursing field.

H- Making professional decision in different nursing contexts.

I- Innovation / Creativity.

F - Dialogue and debate based on evidence.

### 2-3 Professional skills

By The end of the study the doctoral program graduates must be able to:

A - Mastering basic professional nursing and modern skills in the field of nursing.

B- Write and evaluate professional reports.

C - Evaluate and develop the existing methods and tools in the field of nursing.

D - Use of technological means to serve nursing practice.

E - Planning for the development of nursing practice and performance improvement of others

### 2-4 General and transferable skills

By the end of the study the doctoral program graduates must be able to:

A - Communicate effectively by all different means.

B- Use of information technology to serve the development of nursing practice.

C - Teach others and evaluate their performance.

D - Self-assessment and continuous learning.

E - Use different sources to get the information and knowledge.

F - Work in a team and leader team works.

G -Manage scientific meetings and the ability to manage time

		lecture	exercises	practical		
DS1	Seminars in Basic and Medical Science	3	-	-	1 <sup>st</sup>	1 <sup>st</sup>
DS2	Seminars in the Major Area of specialties	3	-	-	1 <sup>st</sup>	1 <sup>st</sup> and 2 <sup>nd</sup>
DS3	Seminars in the Minor Area of specialties	3	-	-	1 <sup>st</sup>	1 <sup>st</sup> and 2 <sup>nd</sup>
DT4	Thesis	-----	-	-	Minimum 1 <sup>st</sup> and 2 <sup>nd</sup> up to 4 <sup>th</sup>	Continuous

### 7. Program registration requirement

Candidates for the Doctorate of Woman's Health and Midwifery Nursing Program of Faculty of Nursing at Mansoura University will be required to fulfill the following academic criteria:

1. The candidate must have a Master Degree in nursing science with a minimum grade of "good" from Faculty of Nursing or another recognized university in A.R.E.
2. Candidate who learned English as a second language must get at least score of 500 on the national Test of English as a Foreign Language (TOEFL).
3. Candidates who are working in a hospital or health institution must be enrolled on a full time basis for studying courses for Doctorate Program which are divided into two semesters; each of them is four months.

### 8. Roles and Regulation for Completion of the Program

## PhD of Woman's Health and Midwifery Nursing

---

1. The candidate must perform research on an innovative topic that is accepted by the University Council based on the approval of the faculty of nursing Council for at least two years from the date of the registration.
2. The candidate must submit the thesis of her/his research for the acceptance by the Judging Committee for the defense of the dissertation.
3. The candidate must pass a comprehensive examination in general nursing and in the specialty area.
4. Candidates are required to satisfactory pass all required tests as well as its parts with an average grade of the judged committee members.
5. The candidate should not be allowed to be registered for Doctorate Degree more than five years without registering for comprehensive examination. Permission for two years extension may be given to the student by Faculty Council upon an accepted reason.
6. Thesis title should be declared in Doctorate Certificate

## PhD of Woman's Health and Midwifery Nursing

### 9. Roles and Methods for students evaluation

Comprehensive doctoral examination will be held during the months of May and November every year.

The Final grading system is divided into:

- 60% for Oral, and written examination.
- 40% for Thesis

### 10. Methods of Assessment Program

Target groups	Methods	Sample
1- Doctorate students	Self administered questionnaire Semi- structured interview	100%
2- Graduates	Self administered questionnaire Semi- structured interview	100%
3- External Evaluator(s) or External Examiner (s)	Reports	100%
