Execution method:

- The supporting body will be distributed, each entrusted with training in one of the departments of the Children's University Hospital and the Oncology Center, as well as in one of the laboratories on Saturday of every week
  - All members of the supporting body will ensure that the aforementioned preventive measures are implemented
  - All members of the supporting body will record the attendance of students, whether in the hospital or the college labs
  - All members of the supporting body will explain the same weekly content
  - Each member of the assisting body will have the electronic content of the procedures for each area, where he will display and browse, explain the important parts and do practical explanations, reviewing the tools and supplies for each procedure
- All members of the supporting body will explain the points of implementing the electronic part of the same weekly content of training on the educational platform for students in the event of suspension of face-to-face studies, distance education and the use of the electronic platform

**Mansoura University**  
**Faculty of nursing**  
**Pediatric nursing department**

- At the end of the training in the lab and hospital on Saturdays and Sundays of every week, the member of the supporting body records the attendance and absence of the students and also delivers it to the practical coordinator and any other observations that may require reporting

- In the event of suspension of face-to-face studies, distance education and the use of the electronic platform, the implementation will be as follows:

- Familiarity with the electronic content assigned to it
- Uploading the electronic content or following up the upload process with the practical coordinator, whichever is available
- Electronic evaluation work in the form of fifteen multiple-choice questions matching the electronic content
- Monitoring the electronic interaction of each student
- Make a report on what has been accomplished from the area, attendance rates, interaction and evaluation.. and submit it to the operation coordinator

**Credit hours of clinical pediatric nursing course:** 4 Credit Hours / week

**Evaluation methods of Clinical Pediatric Nursing Course:**

<b>Total semester work (210)</b>			
<b>Type</b>	<b>Strategy</b>	<b>Score</b>	<b>Percent</b>
Clinical evaluation for each area No. of clinical areas = 9	<b>Evaluation sheet</b> Case presentation	156 (17 for each area) 3 grades	<b>74.28%</b>
Lab demonstration & re demonstration	Check list	24	11.42%
Egyptian knowledge bank modules	<b>On line Self directed learning</b> <b>Module I</b> Cardiopulmonary resuscitation of wet newborn <b>Module II</b> Subcutaneous injection <b>Module III</b> Intravenous injection	<b>Total modules</b> <b>30 grades</b>  10 grades  10 grades  10 grades	14.28%
Note: 15% discount for the activities of the Egyptian Knowledge Bank has been deducted by 30 degrees of practical grades for the course as follows: Project 20 degree discount in addition to a degree discount Mother class 10
