

Clinical Training Plan for Course of Nursing Administration (2), 2nd Semester for Academic Year 2023/2024

First: The part related to practical training in the hospital

However, despite this, more than (1251 students) registered in cooperation with the limited time for research allowed for each group, which results in the impossibility of all of these students entering the hospital workplace, which hinders achieving all the basic health benefits from the occurrence of disease to the risks of infection, based on Accordingly, the students were divided into 4 groups (A & B & C & D, each group containing 313 students. Each group was divided into 10 groups, 32 students in each group, and 10 students in each group were allocated to patients.

Member of Parliament for various groupings as:

- Conducting amateur interactive sessions (online meetings using Microsoft Teams).
- By explaining the video tapes produced by being released on the electronic console.
